Investment risks

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and investors may not get back the full amount invested. As a large portion of the fund is invested in less developed countries, you should be prepared to accept significantly large fluctuations in the value of the fund. The fund may invest in certain securities listed in China which can involve significant regulatory constraints that may affect the liquidity and/or the investment performance of the fund.

Fund Strategy

The fund aims to achieve long-term capital appreciation by investing primarily in equity securities of Asian companies whose business is likely to benefit from growth in domestic consumption in Asian economies. We believe there are ample investment opportunities to be found by tapping into the megatrends within the consumer space, such as Digitalization, Wellness, Premiumization (the shift towards more expensive premium products), New Experience and Urbanization. The team makes use of a bottom-up, selective approach to invest in companies that display sustainable leadership and competitive advantages, while trading at a discount to our view of fair value. Environmental, Social and Governance (ESG) considerations are fully integrated in the investment process.

Past performance does not predict future returns. Each period starts at the end of the indicated month. The first indicated month may not represent a full month and may start only on the launch/restructuring date indicated in the headline.

SFDR (Sustainable Finance Disclosure Regulation)

The Fund complies with Article 8 with respect to the EU's Sustainable Finance Disclosure Regulation*. As such, the fund promotes, among other characteristics, environmental or social characteristics or a combination of those characteristics. In addition, the companies in which the fund invests follow good governance practices. *Regulation (EU) 2019/2088 on sustainability - related disclosures in the financial services sector.

Exclusion Framework

The Fund embeds an exclusionary framework to specific activities based on UN Global Compact, severe governmental sanctions, revenue thresholds for certain activities linked to environmental and/or social criteria, as well as ensuring that companies follow good governance practices. The list of activities and their thresholds are listed below. For further details on the exclusion framework and characteristics applied by the fund please refer to the website of the manager <https://www.invescomanagementcompany.lu>:

*At Invesco we continuously monitor any applicable sanctions, including those imposed by the UN/US/EU and UK. These sanctions may preclude investments in the securities of various governments/regimes/entities and as such will be included in our compliance guidelines and workflows (designed to ensure compliance with such sanctions). The wording of international sanctions is something that we pay particular attention to as there are occasions where sanctions can exist in limited form, for example allowing investments in the secondary market. In addition to sanctions targeting entire countries, there are other thematic regimes, which may focus for example on human rights, cyber attacks, terrorist financing and corruption, which may apply to both individuals and/or entities/corporations.

Any investment decision should take into account all the characteristics of the fund as described in the legal documents. For sustainability related aspects, please refer to: <https://www.invescomanagementcompany.lu/lux-manco/literature>.
